San Jose Flipper Dippers

NOVEMBER
2016

GENERAL MEETINGS HELD
3RD WEDNESDAY
OF EACH MONTH
WWW.SJFLIPPERDIPPERS.COM

DIVING THE PHILIPPINES

A group of Flipper Dippers are looking into diving in the Philippines next July, 2017. **Jim Rezowalli** will be giving a presentation on the trip he made a couple of years ago. Puerto Galera features exhilarating Indo-Pacific diving of world-class dive sites in clear, warm water. Short boat rides, a cornucopia of critters, great photography (both macro & wide-angle), excellent food, climate controlled rooms, on-site and local spas, friendly service and more – all the ingredients for a fantastic dive vacation! Jim is working up a list of divers interested in going and will be holding a planning meeting this month. Come see what great diving there is in the Philippines. Contact Jim for trip info (408) 202-3132, jimandthebeach@gmail.com. ★

Nominations for 2017 Club Officers at November General Meeting
See page 7 for description of office duties

Refreshments Are Being Served

The following Dippers are asked to bring a tasty goodie to the next General Meeting: **Bill Shipman, John Snyder, Howard Timoney, Carl Tuttle, Steve Wall and Lance Williams.** Don't forget you will receive a FREE raffle ticket for your donation! ★

So, where exactly are those UW arches?

Larry Ankuda coordinated the Second Saturday Scuba (S3) dive on October 8th. He was joined by **Manuel Mangrobang** (left), **Grace Chi** (right) and **Ed McNeill** in search of underwater arches described in **Bruce Watkins'** book "A Diver's Guide to Monterey County." The location was Carmel Meadows: "Go down the stairs with 88 steps to the sand beach." Oops! After discovering there are two sets of stairs, the group found the correct stairs. Can divers count steps? They can now! Visibility was 20-40 feet, lots of sand was seen and the mysterious "Golden Arches" are still a mystery. ★

Human Skeleton Found on Famed Antikythera Shipwreck

Jo Marchant, Nature Magazine

Hannes Schroeder snaps on two pairs of blue latex gloves, then wipes his hands with a solution of bleach. In front of him is a large Tupperware box full of plastic bags that each contain sea water and a piece of red-stained bone. He lifts one out and inspects its contents as several archaeologists hover behind, waiting for his verdict. They're hoping he can pull off a feat never attempted before—DNA analysis on someone who has been under the sea for 2,000 years.

PRESIDENT'S CORNER

My goodness, it's November already! Where has this year gone? Soon we'll be dealing with all the hustle and bustle of the holiday season but let's keep diving too! Here's what's in store for the Dippers this month.

For entertainment at our November meeting, Dipper **Jim Rezowalli** will be showing pictures from a past trip to the Philippines. We're planning a Dippers' warm water trip to the Philippines in 2017, so come and get a preview of the beautiful diving there!

Also at the November General Meeting we will be accepting **Nominations for our 2017 Officers** so start thinking about who you'd like to nominate. And if YOU get nominated, please run. The Club can always use new officers with new thoughts and ideas on making our Club run better. See page 7 for a description of the duties associated with each position.

If you haven't paid your Club dues yet, you have until November 30th to pay without a late fee. And remember to complete and sign the annual Assumption of Risk Agreement form. There's one on the Club's Website: www.SJFlipperDippers.com (Membership Requirements).

Our Annual Awards Banquet has been moved to Sunday, January 22, 2017. This event is always a lot of fun. This year there will be a few new menu choices, but the cost to attendees will be the same as last year. Tickets will be available at the November general meeting. See page 6 for more information.

There will be a special photo collage tribute to **Bill Zschaler** at the Awards Banquet in January. Everyone is invited to submit photos of Bill to share. So dig through your files and folders for those photos or print them from your digital images. Any size (up to 8 x 10) photo paper will be accepted. Please bring your photos to **Teresa Hanson** at the November or December general meetings.

Everyone keep safe and let's go diving! – **Barbara**

Recreational Abalone Advisory Committee (RAAC) Meeting

Someone posted information on the NorCal Kayak Anglers' Forum page that there will be a discussion on reducing the annual take to 9, starting in 2017. If you're interested, you should attend!

When: Saturday, November 5, 2016

Where: Marin/Sonoma Mosquito and Vector

Control boardroom, 595 Helman Lane, Cotati
Time: 10:30 AM – 3:30 PM.

Proposed Emergency Rulemaking for the 2017 Red Abalone fishery will be discussed including:

- Recent survey results and need for rulemaking
- Environmental factors causing the concern for action
- Discussion of rulemaking options (includes public expression on this topic) ★

Diver's I.Q. Review Corner

This Month's Question: To maintain neutral buoyancy during descent, a diver should:

1. Add air to the BC
2. Remove air from the BC
3. Add lead weights to the belt
4. Remove lead weights from the belt

Send your answer by e-mail to **Larry Ankuda** at lankuda@comcast.net. All attendees at the next general meeting with the correct answers will be included in a drawing for 10 free raffle tickets. Good Luck!

CLUB COMMITTEES

RAFFLE NEWS

Lance Williams

The October Raffle was a low participation success (if there is such a thing): **Carl Tuttle** won twice: a headlight donated by **Grace Chi**, and the second item was donated back to the Raffle Table. The donation of a book "1000 Places to See" was picked by **Jackie** and **Tom Gardner**, L.O.R.D **Larry Ankuda** donated a headlight taken by **Ed McNeill**. The Stanley hand-held LED light was taken by **Steve Richards**. Ed also won a second prize, a unique National Lighthouse Calendar. Jackie and Tom hit it big picking a return gift of a handmade Ceramic Moon, and **Mike Chalup** grabbed the other "re-gifted" item, a 2-inch rust-resistant PVC wetsuit hanger.

THE DOOR PRIZE The \$10 door prize name was picked by **Mike Chalup** and won by **Steve Wall** – who was not at the meeting! So it's \$20 for our November general meeting. As Steve knows, you must be in attendance to win and if you miss the meeting and your name is drawn, another \$10 is added to the pot!

THIS MONTH'S RAFFLE: If YOU didn't make your donation last month, bring one this month! Each month we pick names from the Club's Roster for members to bring a **dive-related** donation for the Raffle Table. So this month the following are asked to bring a dive-related gift: **Tom Gardner, Jackie Gardner, Teresa Hanson, John Jones, Steve Lodoen, Manuel Mangrobang** and **Ed McNeill**. If you live out of the area or can't attend the General Meeting, please contact, **Lance Williams** (+1-650-321-5255, Willo1044@yahoo.com) to send in a check. He will pick up a raffle donation in your name. The raffle has always been an important and FUN part of our General Meetings. Please do **your** part as a Club member and provide a raffle donation when your name comes up. Thank you! ★

MEMBERSHIP

Teresa Hanson

There are prospective members looking to dive and we look forward to diving with you!

Prospectives must have a Club jacket either in possession or on order to be voted into the Club. See the Club's Website (Membership Requirements) for information and where to purchase. Contact **Teresa** for additional information on any and all Membership Requirements.

A FREE raffle ticket will be given to the following Dippers who have a birthday this month: **Charter Member Dale Darnell, Tom Gardner, Teresa Hanson, Ken Seaton,** and **John "FEMA" Snyder**. Happy birthday! ★

CLUB DUES DUE - Don't be late!

It's that time again. Time to pay your **annual dues** at the General Meeting. Dues help cover a portion of the yearly room rental and the printing/ mailing of the newsletter . . . our two biggest Club expenses. Each member will be asked to sign an "Assumption of Risk Agreement" when dues are paid. These forms will be available at the October General Meeting. Members are asked to complete a new form each year. Out-of-town members will be mailed a Risk Agreement form to be signed and returned (one copy only) with their dues. Please mail your dues and completed form to: **Jim Rezowalli**, 17040 Oak Leaf Drive, Morgan Hill, CA 95037.

Club Dues \$50.00 per year and **\$10.00** per year to receive this Newsletter via the U.S. Postal Service. Or download it FREE each month off the Club's Website in full color. Charter and Lifetime Members will continue to receive the Newsletter by U.S. mail for FREE. CenCal (Central California Council of Diving Clubs) and USofA (Underwater Society of America) dues are **\$15.00 each**. These optional dues support the many efforts of CenCal and USofA on behalf of all divers in the areas of beach access along with conservation, and state and national legislation. These two organizations form an effective method for presenting the divers' interests state-wide and nationally.

A summary of our annual dues is as follows:

CLUB	\$ 50.00
Newsletter via U.S. Mail	10.00
CEN CAL	15.00
USA	15.00
Total	\$ 90.00

Remember, associate member (non-diving spouses of Dippers) dues are **\$5.00**. Associate members may attend Dipper functions at member prices, but have no voting privileges. Also, dues must be paid by November 30th or you will incur a **late fee of \$5.00. SO DON'T DELAY!** ★

2016 TROPHY STANDINGS

Each month the person whose name appears in the newsletter will receive **3 FREE RAFFLE TICKETS** at the General Meeting — if in attendance. If you hold a trophy several months in succession, you will receive **3 FREE** tickets each month until someone beats your catch.

Contact **John Snyder** at +1-408-202-5196, e-mail: john.fishhunter@gmail.com, **WITHIN 1 WEEK** and give him all the proper info (include the name of one Club-member witness). ★

continued from front page

The researchers are on the tiny Greek island of Antikythera, a 10-minute boat ride from the wreckage of a 2,000-year-old merchant ship. Discovered by sponge divers in 1900, the wreck was the first ever investigated by archaeologists. Its most famous bounty to date has been a surprisingly sophisticated clockwork device that modelled the motions of the Sun, Moon and planets in the sky—dubbed the ‘Antikythera mechanism’.

On August 31 this year, investigators made another groundbreaking discovery: a human skeleton, buried under around half a meter of pottery sherds and sand. “We’re thrilled,” says Brendan Foley, an underwater archaeologist at Woods Hole Oceanographic Institution in Massachusetts, and co-director of the excavations team. “We don’t know of anything else like it.”

Within days of the find, Foley invited Schroeder, an expert in ancient-DNA analysis from the Natural History Museum of Denmark in Copenhagen, to assess whether genetic material might be extracted from the bones. On his way to Antikythera, Schroeder was doubtful. But as he removes the bones from their bags he is pleasantly surprised. The material is a little chalky, but overall looks well preserved. “It doesn’t look like bone that’s 2,000 years old,” he says. Then, sifting through several large pieces of skull, he finds both petrous bones—dense nuggets behind the ear that preserve DNA better than other parts of the skeleton or the teeth. “It’s amazing you guys found that,” Schroeder says. “If there’s any DNA, then from what we know, it’ll be there.”

The skeleton discovery is a rare find, agrees Mark Dunkley, an underwater archaeologist from the London-based heritage organization Historic England. Unless covered by sediment or otherwise protected, the bodies of shipwreck victims are usually swept away and decay, or are eaten by fish. Complete skeletons have been recovered from younger ships, such as the sixteenth-century English warship the *Mary Rose* and the seventeenth-century *Vasa* in Sweden. Both sank in mud, close to port. But “the farther you go back, the rarer it is”, says Dunkley.

The individuals found at Antikythera could be from the crew, which would probably have consisted of 15–20 people on a ship this size. Greek and Roman merchant ships also commonly carried passengers, and sometimes slaves. One reason people get trapped inside shipwrecks is if they are chained, points out Dunkley. “The crew would be able to get off relatively fast. Those shackled would have no opportunity to escape.” Intriguingly, the recently discovered bones were surrounded by corroded iron objects, so far unidentified; the iron oxide has stained the bones amber red.

Finding undisturbed remains such as those at Antikythera is crucial because it offers the opportunity to extract any

DNA in the best possible condition. Previously salvaged bones are not ideal for analysis because they have often been washed, treated with conservation materials or kept in warm conditions (all of which can destroy fragile DNA), or handled in a way that contaminates them.

Schroeder guesses from the skeleton’s fairly robust femur and unworn teeth that the individual was a young man. As well as confirming the person’s gender, DNA from the Antikythera bones could provide information about characteristics from hair and eye color to ancestry and geographic origin. In the past few years, modern genome sequences have revealed that genetic variation in populations mirrors geography, says Schroeder. He and others are now starting to look at how ancient individuals fit on that map, to reconstruct past

population movements. Would the shipwreck victim look more Greek-Italian or Near Eastern, he wonders?

Over dinner, the researchers decide to nickname the bones’ owner Pamphilos, after a name found neatly scratched on a wine cup from the wreck. “Your mind starts spinning,” says Schroeder. “Who were those people who crossed the Mediterranean 2,000 years ago? Maybe one of them was the astronomer who owned the mechanism.” 🌟

Excavations in 2016 at the Antikythera Shipwreck produced a nearly intact skull, including the cranial parietal bones. Credit: Brett Seymour, EUA/WHOI/ARGO

Finding NEEMO

NEEMO - the NASA Extreme Environment Mission Operations project - is a NASA analog mission that sends groups of astronauts, engineers and scientists to live in Aquarius, the world’s only undersea research station, for up to three weeks at a time. Operated by Florida International University (FIU), Aquarius is located 5.6 kilometers (3.5 miles) off Key Largo in the Florida Keys National Marine Sanctuary. It is deployed next to deep coral reefs 62 feet (19 meters) below the surface.

The Aquarius habitat and its surroundings provide a convincing analog for space exploration. Much like space, the undersea world is a hostile, alien place for humans to live. NEEMO crew members, known as aquanauts, experience some of the same challenges there that they would on a distant asteroid, planet or moon. During NEEMO missions, the aquanauts are able to simulate living on a

27th Annual Seafood Dinner & Dance

Thanks to everyone who participated, including **Bob Prinz II**, **Helen Conway**, **Steve Lodoen** (who flew in from North Dakota) and former Club member **Jill Kirk**! It was great to see everyone there and the Club appreciates your participation. 🌟 (Photos by Mike Chalup)

2016 Flipper Dippers' Photo Contest

Jim Rezowalli

It's time to start sorting and mounting your photos for the 2016 Flipper Dippers' photo contest!

Here are the "Official Rules":

A) There are two categories:

1. Diving Gnome –

This is any photo with the "Official" SJFD Diving Gnome. If your picture has a Gnome in it, the photo falls into the Diving Gnome category.

2. Underwater – This is any photo taken underwater without a Gnome.

B) Photos must be taken during 2016 at a Flipper Dippers' coordinated event. This is any event or dive that was published in the Newsletter or mentioned at a Club meeting.

C) Up to four photos can be entered into each category, that is up to four Diving Gnome photos and/or four Underwater photos. If more than one photo is submitted the group of photos will be judged as a collection (that way one person cannot win 1st, 2nd, and 3rd place).

Photos can be no larger than 8-inches x 10-inches. All photos submitted for a category must be mounted on the same piece of mounting board. For instance if you submit three Gnome photos and four underwater photos, the Gnomes must all share one mounting board as a collection and the underwater photos must share another mounting board as a collection. Mounting boards should be large enough to hold all your 8 x 10 prints.

D) Photos will be judged by attendees at the Annual Awards Banquet, on January 22, 2017, and the winners will be announced at the February General Meeting. There will be First, Second and Third place prizes.

E) Photos must be turned in to Jim Rezowalli by Jan 1, 2017. Bringing them to the December General Meeting is your best option.

If you do not follow the rules your photo will be disqualified and rejected! If you are unclear as to the rules send Jim an email: jimandthebeach@gmail.com ☆

Annual Awards Banquet

Mark the evening of **SUNDAY, January 22nd** on your 2017 calendar for our Annual Flipper Dippers Awards Banquet. The Flipper Dippers Annual Awards Banquet is again going to be held at **Michaels At Shoreline**, 2960 Shoreline Blvd., in Mountain View. Michaels is the Clubhouse for Shoreline Golf Links. You won't want to miss this one! Due to the date change, to a Sunday, the banquet will start earlier at 5 PM.

As in past years, the Club is subsidizing the cost of the Banquet. **Tickets this year are prix fixe on meal selection at \$45.00.** Each entrée is served with seasonal greens, fresh vegetables, potato du jour, French rolls, and coffee.

Entrée choices include:

- Roast Prime Rib of Beef, au jus
- Crab and Shrimp Cannelloni
- Breast of Chicken Marsala
- Vegetarian: Mushroom Crepes

All dinners include appetizers and dessert: Chocolate Torte. No-host bar starts at 5:00 PM and dinner at 6:00 PM. Hard and soft drinks are available at the clubhouse bar, which is across the entry aisle from the banquet room. There is a corkage charge of \$7.50/bottle (\$11 for you magnum drinkers), payable directly to the server when opened.

Carl Tuttle will have tickets on sale at the November and December General Meetings. Or you can contact Carl (408-286-7956; tutcomms@sbcglobal.net) to purchase your tickets. Don't miss this fun-filled evening! ☆

continued from page 4

spacecraft and test spacewalk techniques for future space missions. Working in space and underwater environments requires extensive planning and sophisticated equipment. The underwater condition has the additional benefit of allowing NASA to "weight" the aquanauts to simulate different gravity environments.

A technique known as saturation diving allows the aquanauts to live and work underwater for days or weeks at a time. After twenty four hours underwater at any depth, the human body becomes saturated with dissolved gas. With saturation diving, divers can accurately predict exactly how much time they need to decompress before returning to the surface. This information limits the risk of decompression sickness. By living in the Aquarius habitat and working at the same depth on the ocean floor, NEEMO crews are able to remain underwater for the duration of their mission.

NASA is developing the technologies and systems to transport future explorers to multiple destinations, each with its own unique - and extreme - space environment. Future destinations may include near-Earth asteroids, the moon, and Mars and its moons. To prepare for these complex missions, NASA must conduct field tests in

Earth-based extreme environments to plan, test and develop technologies that will help guide the future direction of human exploration of the solar system. ☆

DIVE & ACTIVITY CALENDAR

BRIAN ZAUGG

www.SJFLIPPERDIPPERS.COM

NOVEMBER 2016

TUESDAY, NOVEMBER 1

VAN DAMME RESERVATIONS OPEN UP FOR MAY 2017 Those interested in diving/camping at Van Damme for Memorial Day Weekend, May 26-29 (Fri-Mon), you'll want to get on-line and secure a campsite. Reserve America, www.reserveamerica.com, 1-800-444-7275.

WEDNESDAY, NOVEMBER 2 BUSINESS MEETING

Meeting will be held at **Teresa Hanson's** home (408) 966-6433, teresa_hanson@comcast.net. All members are invited to attend. This is a good time to share your new ideas for dives and entertainment. **Meeting starts promptly at 7:30 PM.** Refreshments to share are welcome.

SATURDAY, NOVEMBER 12 SECOND SATURDAY SCUBA (\$3)

Coordinator: **Grace Chi**, (858) 377-2674, chi.gracechi@gmail.com. Details: Grace is coordinating this S3 dive aboard the BeachHopper II. Go to the BeachHopper's Website to sign up (www.beachhopper2.com). Cost is \$80 for a 2-tank dive (if you bring your own 2 tanks). You can also request tanks as part of your

registration (per tank charges are \$10 for air, \$15 for nitrox) and they will be on the boat. Boarding is 7:30 AM at K-Dock, departure is 8:00 AM. Contact Grace for more info.

GENERAL MEETING WEDNESDAY, November 16th

7:30 PM at the Knights of Columbus Santa Maria Hall
2211 Shamrock Dr., Campbell.

Come celebrate 52 Years of the San Jose Flipper Dippers at our General Meeting.

Entertainment: Jim Rezowalli will be presenting photos and more on the Dippers' upcoming trip to the Philippines on 2017

THE DOOR PRIZE IS \$20!

SATURDAY, NOVEMBER 19 NO SCHEDULED DIVE

**SATURDAY, NOVEMBER 26
1-DAY AB GRAB** Coordinator: **Carl Tuttle**, +1-408-286-7956; Email: tutcomms@sbcglobal.net. This will

be a float dive at the "Secret Spot," if conditions are good (aka mile marker SON42.36). If not, we'll dive at Timber Cove (\$8 fee per person). Meet at the Central YMCA parking lot at 6:30 AM to carpool. We'll stop for breakfast at Henny Penny's Diner in Petaluma, so you could meet the group there. Don't forget your float, individual catch bag, ab card, zip ties, a pen that writes. Sign up at the General Meeting.

Hey, all you turkeys, why don't you go for abs with Carl? ... and finish filling up your ab card!

UPCOMING IN DECEMBER

- 01 Abalone season closes
- 07 Business meeting
- 10 Second Saturday SCUBA
- 11 Tomales Bay Clam Dig
- 21 **General Meeting**
 - o Elections for 2017 Officers
 - o Big Christmas Raffle

NOMINATIONS FOR 2017 CLUB OFFICERS

At the **November General Meeting** we will be nominating Club members for the following offices: **President, Vice President, Secretary, Treasurer** and **Sergeant at Arms**. To be eligible to hold an office, one must be a current member in good standing. Presidential nominees must have been a club member for at least two years. Responsibility of an officer includes attending both the

general and business meetings as well as carrying out the duties of the office (see below). Holding an office is a rewarding experience as well as being of benefit to the club. This is your chance to *get involved* and voice your ideas as to the future of the San Jose Flipper Dippers. **The Election of our officers will take place at the December General Meeting.**

Duties of our Club Officers are as follows:

PRESIDENT: Has overall responsibility for the club's success. Presides at all general, business and special meetings and appoints standing committees for the year and special committees as seen fit. Also includes writing a monthly *President's Corner* for the newsletter.

VICE PRESIDENT: Responsible for scheduling of the dive calendar each month, arranging for dive coordinators, and writing the monthly calendar article for the newsletter. Includes presiding at all meetings in the absence of the President.

SECRETARY: Includes maintaining the minutes for all general and business meetings and handling club-related correspondence. Responsible for attending all meetings or making arrangements for someone to handle the duties in his/her absence.

TREASURER: Receives membership dues and handles all income and expenses, maintains financial records, and makes monthly reports to the club. Also makes deposits into the club's accounts and issues checks for authorized expenses. Maintains expense accounts as needed for events such as boat dives, banquets, etc.

SERGEANT AT ARMS: Includes making arrangements for all meetings and setting up necessary meeting equipment. Maintains order at the meetings and collects fines levied upon members. *

NOTE: All certified divers are encouraged to attend San Jose Flipper Dippers' dives.

Non-Club members will be required to show proof of certification to the dive coordinator prior to entering the water with our group. Please sign up for dives at the General Meeting or call the coordinator. This is needed in case of cancellation or changes.
